Topo

Who  
We  
Are

**Topo SDS** is a privately owned plastic thermoforming company, an integrated manufacturing facility from plastic granule to container. We specialize in manufacturing *Thermoform Rolls* and recyclable food packaging for the *Bakery, Deli, Confectionary, and Food Service Industries* using PP, PS,PVC,PET and rPET plastic materials.

**Topo SDS** management's KPIs are offering its customers sustained high-quality products, excellent customer service, and smartly planned real-time supply options with a competitive cost.

**Topo SDS** HQ is located at Fairfax, Virginia distributing across North America.

**Folyoterm**, the manufacturing company of TopoSDS, is one of the leading companies in the Turkey's plastic packaging industry since 1991, serving 50 countries around the globe from its high standard factory, based on 160,000 sq ft, located in Istanbul, Turkey.

**Folyoterm** is owning over 600 unique moulds and has in-house mould manufacturing capability to meet custom design mould requests in a relatively quick time frame and competitive cost.

**Folyoterm** rolls and packaging production services are done in the frame of ISO 9001:2008 Quality Management System. ISO 9001 Quality and IQ Net Certificates are confirmed by AFNOR Certification in the scope of "Production, Marketing and Sales of Plastic Food Containers, Bowls, Trays and all Thermoform-Vacuum Shaping and Packaging Products".

*Quality that matters*

## Quality Policy

In all its activities, Topo SDS operates under the relevant laws and regulations.

Topo SDS complies with international management standards and incessantly increases its effectiveness.

Our approaches are based on trust, focus, innovation; processes are organizing labor security, order, quality, and efficiency, and our results are generating added values for our customers and seeking the ultimate common benefit.

Our approaches, processes, and results are regarded to be fertile instruments for a sustainable growth relationship with our customers.

Topo SDS prioritizes improving the know-how and full potential of its employees at the personal and team levels.

Topo SDS provides products and services within the framework of universal values, ethical rules, and working principles.

Topo SDS develops smart approaches to the quality of goods and services in a sustainable and continuous improvement cycle.

## Customer Satisfaction Policy

Topo SDS complies with relevant local and international regulations to keep customer satisfaction at the highest level and develops innovative and integrated approaches.

Topo SDS conforms to the excellence models of ISO 10002, EFQM, Malcolm Baldrige and continuously improves its efficiency.

Topo SDS uses the best practices obtained from multi-application practices in the same sector for customer benefit, in addition to our customers' narrowed demands.

Topo SDS listens to all the requests and complaints, registers them, concludes them by expert staff, and concludes the process by giving feedback with the action plan in a reasonable time.

Topo SDS develops innovative, systematic, and smart solutions to meet the demands and expectations of customers.

## Environment Policy

Topo SDS fully complies with local and international environmental regulations and remains updated.

Topo SDS continuously develops its activities and compliance with the ISO 14001 Environment Management System.

Topo SDS anticipates and minimizes the risks associated with effective control of all activities with a significant environmental dimension.

Topo SDS reduces waste at its source and ensures that it is disposed of following rules.

Topo SDS prefers environment-friendly products and services in the purchase of goods and services.

Topo SDS takes responsibility for a sustainable future by continually improving its sensitivity toward the environment.

## Work Health and Safety Policy

Topo SDS's activities and practices keep human health and safety at the center of everything and do not see any commercial benefit over this universal value.

In our process management, workplace safety comes before layout, order, quality, and effectiveness and constitutes the indispensable, core element of our total grade.

Topo SDS completely fulfills all relevant legal regulations related to Work Health and Safety and remains up-to-date.

Topo SDS complies with OHSAS 18001 Work Health and Safety management system and continuously improves its effectiveness.

Topo SDS repeats risk assessments to eliminate work health and safety risks and makes this permanent.

Topo SDS collaborates with public and private sector institutions and non-governmental organizations to provide continuous Work Health and Safety improvements.

Topo SDS provides the most reliable working environment for its employees and society by continuously improving Occupational Health and Safety consciousness and makes this permanent.
